

Shashank Shetty

MERN Stack Web Developer

Contact

Hyderabad, India — shettyshashank2002@gmail.com — +91 9666368880 — LinkedIn — GitHub

Summary

MERN Stack Developer skilled in building scalable full-stack applications with React.js, Next.js, Node.js, Express.js, and MongoDB. Experienced in REST API design, performance optimization, and Agile delivery. Created interactive 3D experiences using React Three Fiber (R3F) and GSAP with measurable improvements in engagement and load times. Strong problem-solving, clean-code, and debugging practices.

Skills

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, GSAP, React Three Fiber (R3F)

Backend: Node.js, Express.js, REST APIs, WebSockets

Database: MongoDB (Atlas), SQLite

Tools: Git, GitHub, Postman, VS Code

Methods: Agile/Scrum, Responsive Web Design, Performance Optimization

Experience

Full-Stack Developer — Projects/Academic

Jan 2023 – Present

Built and shipped 5+ full-stack projects using React / Next.js, Node.js / Express.js, and MongoDB with a focus on performance and clean architecture.

- Implemented secure REST APIs, authentication, and role-based access; integrated caching and code splitting, improving page load times by up to 30%.
- Collaborated on group workflows using Git and code reviews; developed 20+ reusable components and utilities, accelerating development speed by 25%.

Projects

NextBlogger

Aug 2025 – Present

Live Demo

Full-stack blogging platform with authentication, dark/light mode, dynamic routing, and reusable UI components.

- Reduced page load times by 30% through code splitting, caching, and component reuse.
- Secure blog creation, editing, and search with role-based access for 100+ users.
- **Tech:** Next.js, React, Node.js, Express.js, MongoDB, Tailwind CSS

3D Portfolio Website

Jun 2025 – Present

Live Demo

Interactive 3D portfolio featuring car and VRM character models, animations, and responsive layouts.

- Increased user engagement by 40% using R3F scenes, GSAP animations, and optimized assets.
- Improved cross-device performance by 25% through model optimization, texture compression, and lazy loading.
- **Tech:** React Three Fiber, GSAP, React, Tailwind CSS

Medicinal Plants Identifier

Jan 2023 – Jun 2023

Repository

Flask web app to classify Indian medicinal plant leaves using a CNN with 90% accuracy.

- Built an image upload and prediction pipeline; processed 500+ plant images with real-time feedback.
- The plant information was dynamically extracted, improving usability and learning by 35%.
- **Tech:** Flask, Python, CNN, HTML/CSS/JS

Education

B.Tech in Computer Science - Jayaprakash Narayan College of Engineering (JPNCE), Mahabubnagar, India CGPA: 7.11

Aug 2020 – Jun 2024

Certifications

Introduction to Cybersecurity — Cisco — Getting Started with Compute — AWS Educate — React JS — NxtWave

Additional

Languages: English, Hindi, Telugu —

Strengths: Full-stack development, REST API design, responsive interfaces, 3D web experiences, problem solving
